

Come take part in the first  
European show for  
Chemistry startups

---

December 2024

**CHEM**  
**DAY**<sup>2025</sup>

# The largest event in France dedicated to Chemistry

On December 16, 2025, a new major event dedicated to the Chemistry industry and its innovations will be organized in Paris (La Défense) : the Chem Day.

More than 1,000 participants are expected for business meetings and conferences on major transformations in the sector: business leaders, investors, students, politicians, journalists, etc.

A unique showroom in France will present the solutions and innovations of Chemistry players and their partners.

100 European startups will be present in the showroom, a first in Europe.

## Round tables & keynotes on innovation

The Chem Day invites the public to **project into the future, to reflect and dream.**

**Keynotes, round tables, and award ceremonies** will follow one another throughout the day in the auditorium on Chemistry innovations to meet the great challenges ahead.

The floor will be given to **today's and tomorrow's leaders:**

- › leaders of large groups and SMEs
- › political leaders,
- › experts,
- › young innovators...

# A showroom bringing together startups, companies, and solution providers

An unprecedented showroom will bring together different types of actors:

- › 100 Chemistry startups from France and Europe,
- › thematic exhibitions presenting innovations from Chemistry companies,
- › stands of solution providers.

Throughout the day, spaces and times will be dedicated to **networking**.

The event's **mobile application** will facilitate meetings and appointments.

A walk will be organized for political (Commissioner, minister...) and institutional leaders.

# Your stand in the showroom

France Chimie plans to invite 100 European Chemistry startups to be present in the showroom open to all Chem Day participants (business leaders, investors, institutions, journalists, etc.).

The stand is free (1.5m wide by 2m high with a signboard and high table), you will only have to pay for the purchase of entry tickets (€165 excluding tax).

Startups will only need to provide their logo and a presentation text.

The startups will be selected to cover 6 thematic areas\*:

- › Health, hygiene and beauty,
- › Energy and sustainable mobility,
- › Circular economy,
- › Food and agriculture,
- › Everyday chemistry,
- › Water.

*\* To be confirmed*
